P SHALINI

Bengaluru, India | +91 7019524124 | shalinigowda17112006@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Product-minded software developer (B.Tech CS, 2028) specializing in turning core business friction into resilient software solutions. Demonstrated success delivering end-to-end web APIs, enterprise automation pipelines, and optimized data layers using Java and Python stacks. Focused on building scalable technical infrastructure that directly accelerates operational velocity.

EDUCATION

Atria Institute of Technology — Bengaluru, IN

Bachelor of Engineering (B.E) in Computer Science & Design *(8.3 CGPA)* — Sep 2024 - Jun 2028

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks & Tools: Git/GitHub, Express, Next.js

Databases & Data: SQL, DynamoDB, Vector Search, Data Pipelines

Core Concepts: Data Structures & Algorithms, System Architecture, Object-Oriented Programming (OOP), Unit/Integration Testing, Agile/Scrum

EXPERIENCE

Atria institute of technology - Management division — Bengaluru, IN

Summer Intern — May 2026 – Present

- Drove measurable audience acquisition, with autonomous campaign assets generating over **5,000 views** and **1,500+ interactions** across active digital channels.
- Collaborated cross-functionally with event and communications teams to deliver **high-impact visual campaigns under tight timelines**.
- Helped strengthen the institute's digital presence through **consistent, audience-focused visual storytelling**.

Google Developer Group (GDG) on Campus — Atria IT, Bengaluru, IN

Organizer — Sep 2026 - Present

Cybersecurity lead — *Sep 2025 - Sep 2026*

- Orchestrated **5+ high-impact technical events** on Google Cloud, Generative AI, Web3, and Android, overseeing vendor partnerships, venue execution, and swag logistics while achieving 95% attendee satisfaction.

Google Crowdsource Learning Community — Atria IT, Bengaluru, IN

Student Community Influencer — Jul 2025 - Present

- Contributed **high-quality training datasets** to Google's Crowdsource AI initiative, performing data validation, image labeling, and NLP annotations to improve multi-modal and multilingual machine learning models.

PROJECTS

Iluna Ecosystem — Academic Workflow Automation | *Next.js · Supabase · Vector Search* — May 2026 – Present

- Managed product scope and delivery of an automation platform serving **2.5K+** users, cutting processing lead time by **99%.**
- Led cross-functional alignment across 6 multidisciplinary teams (Innovation & Incubation, CSE, ISE, ECE, Mechanical, and Civil) to consolidate **400+** capstone, research, & startup projects into a centralized **digital portfolio platform**.
- Developed a semantic discovery engine using vector search to calculate project similarity indices, eliminating redundant research and accelerating mentor assignment.
- Automated Excel-based processes, cutting 2–4 hours of manual work to **<30 seconds** and saving 300+ staff hours/semester.

NBHS Project SRCISH — Clinical Intake Platform | *Vite.js · Node.js · Express · DynamoDB · JWT* — Sep 2025 – Dec 2025

- Deployed the primary neonatal intake system for Dr. S. R. Chandrasekhar Institute, streamlining multi nurse shift handovers and supporting continuous monthly patient intake across active clinical shifts.
- Managed cross functional product delivery for a clinical web platform, **coordinating with Obstetricians, Audiologist, Nursing Teams, and Institute Management** to digitize multi departmental patient tracking and admin controls.
- Engineered role specific clinician workflows for post birth intake and automated follow up scheduling, establishing a zero downtime primary registration system supporting **40+ monthly neonatal intakes.**

ACHIEVEMENTS & CERTIFICATIONS

- **3rd Place, SIH Internal Hackathon — Atria IT**(Sept 2026): Built a cross border CNN based fake passport detection system for Ministry of home affaires
- **Best Project Award** — Rotaract Club, Atria IT (Feb 2026): Architected a distributed outpatient scheduling platform supporting role-based access control (RBAC) across patients, physicians, and administrative staff using Spring Boot and PostgreSQL.
- **Rural Digital Literacy Initiative** | Volunteer Facilitator (Chittoor): Mobilized technology deployment at a rural government school by provisioning Android tablets and training primary students on foundational digital literacy and e-learning platforms to bridge the digital divide.
- **Infosys** – Springboard Virtual Internship
- **Cloud Study Jam** — Google (Dec 2025)
- **NPTEL Certification** — Achieved 61% (Elite)
